

POCOPAH COPPER

Pocopah Copper Mining Company

Offers 100,000 Shares of Its Treasury Stock at
SEVENTY-FIVE CENTS PER SHARE

This company owns ten claims in the Pocopah Mining District, Nye County, Nevada, about 45 miles east of Rhyolite. This copper district has already prompted strong acquisition by many copper magnates. The copper sensations of 1906 were Ely, Yerrington and Greenwater, but Pocopah, with very large and rich copper veins and a showing superior to all other districts at the same stage of development, promises to be the **SENSATION OF 1907.**

ORE ZONE.

This copper zone is about 3 miles wide and 8 miles long, and is traversed by large veins of copper carrying from 2 per cent to 40 per cent copper; from \$3 to \$15 per ton in gold, with lead and silver values. This company's vein is the largest and richest in the camp.

SUCCESSFUL OPERATORS.

Some of the greatest copper operators own property in this district, viz: W. A. Clark and Brother, Patsy Clark, McDonald & Milliken, Col. Greene and others. Property is commanding enormous prices.

Ely Copper will make millionaires.

Yerrington Copper will make millionaires

Greenwater Copper will make millionaires

We predict that
